Chapter XI—War Food Administration (Distribution Orders)

[WFO 22-7]

PART 1425—CANNED AND PROCESSED FOODS

CANNED CITRUS FRUIT AND CANNED CITRUS FRUIT JUICES

Pursuant to the authority vested in me by War Food Order No. 22, as amended (8 F.R. 2243, 6397, 9 F.R. 4321, 4319), it is hereby ordered as follows:

§ 1425.9 *Quota restrictions and allocations*—(a) *Definitions*. (1) "Quota period" means the period from December 1, 1944, to November 30, 1945, both dates inclusive, in California; and the period from August 1, 1944, to July 31, 1945, both dates inclusive, in States other than California.

(2) "Base period" means (i) with respect to grapefruit juice, orange juice, and orange juice and grapefruit juice blended, packed in California, the period commencing on December 1, 1943, and ending on November 30, 1944; and with respect to grapefruit juice, orange juice, and orange juice and grapefruit juice blended, packed in States other than California, the period commencing on August 1, 1943, and ending on July 31, 1944; (ii) with respect to grapefruit segments packed in California, the period commencing on December 1, 1941, and ending on November 30, 1942; and with respect to grapefruit segments packed in States other than California, the period commencing on August 1, 1941, and ending on July 31, 1942.

(3) "Canned citrus fruit and canned citrus fruit juices" means the canned citrus fruit and canned citrus fruit juices listed in Column A of Table I, attached hereto and by this reference made a part hereof.

(4) Each term defined in War Food Order No. 22, as amended, shall, when

used herein, have the same meaning as set forth for such term in said War Food Order No. 22, as amended.

(b) *Quota restrictions*. Each canner of canned citrus fruit and canned citrus fruit juices shall set aside, in the manner and quantities hereinafter specified, and thereafter hold for delivery to Government agencies, canned citrus fruit and canned citrus fruit juices, respectively, packed by such canner at any time during the quota period. The quantity of canned citrus fruit and canned citrus fruit juices to be set aside from each canner's pack of each such product packed during the quota period shall be computed by applying the percentage specified therefor in Column B of said Table I against the respective canner's total pack of the respective product during the base period, including his pack in metal and glass containers. If the type, style, variety, and grade of any such canned citrus fruit or canned citrus fruit juices are specified in said Table I, such commodities shall be in the type, style, variety, and grade so specified; but other types, styles, varieties, and grades shall be substituted to the extent that those specified in said Table I are not packed. In the event a canner is preparing to pack, during the quota period, any canned citrus fruit or canned citrus fruit juice listed in Column A of said Table I, which he did not pack during the base period, such canner shall so inform the Director by letter, stating the anticipated quantities to be packed; and such canner shall set aside, and thereafter hold for delivery to Government agencies, a quantity determined by applying the percentage set forth in Column B of said Table I against the canner's total pack during the quota period of each such canner's citrus fruit or canned citrus fruit juice, respectively. In the event a canner does not pack, during the quota period, a quantity of any product designated in Column A of said Table I which is sufficient to meet the set-aside require-

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter A—Income and Excess Profits Taxes

[T. D. 5407]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

INVENTORIES UNDER ELECTIVE METHOD

Section 29.22(d)—1 of Regulations 111 (26 CFR, Cum. Supp.) is amended by adding at the end of that section the following:

§ 29.22(d)—1 *Inventories under elective method.* * * *

A manufacturer or processor who has adopted the elective inventory method as to a class of goods may elect to have such method apply to the raw materials only (including those included in goods in process and in finished goods) expressed in terms of appropriate units. If such method is adopted, the adjustments are confined to costs of the raw material in the inventory and the cost of the raw material in goods in process and in finished goods produced by such manufacturer or processor and reflected in the inventory.

Example (1). Assume the opening inventory had 10 units of raw material, 10 units of goods in process, and 10 units of finished goods and the raw material cost was 6¢ a unit, the processing cost 2¢ a unit, and overhead cost 1¢ a unit. For the purposes of this example, it is assumed that the entire amount of goods in process was 50 percent processed.

OPENING INVENTORY

	Raw material	Goods in process	Finished goods
	Cents	Cents	Cents
Raw material.....	60	60	60
Processing cost.....		10	20
Overhead.....		05	10

In the closing inventory there are 20 units of raw material, 6 units of goods in process, and 8 units of finished goods and the costs were—raw material 10¢, processing cost 4¢, and overhead 1¢.

CLOSING INVENTORY

[Based on cost and prior to adjustment]

	Raw material	Goods in process	Finished goods
Raw material.....	\$2.00	\$0.60	\$0.80
Processing costs.....		.12	.32
Overhead.....		.03	.09
Total.....	2.00	.75	1.20

There were 30 units of raw material in the opening inventory and 34 units in the closing inventory. The adjustment to the closing inventory would be as follows:

CLOSING INVENTORY AS ADJUSTED

	Raw material	Goods in process	Finished goods
Raw material....	20 @ 6¢ = \$1.20	6 @ 6¢ = \$0.36	4 @ 6¢ = \$0.24 14 @ 10¢ = 1.40
Processing costs.....		.12	.32
Overhead.....		.03	.09
Total.....	1.20	.61	1.04

¹ This excess is subject to determination of price under section 22 (d) (1) (B) and § 29.22 (d)-2 of this part. If the excess falls in goods in process the same adjustment is applicable.

The only adjustment to the closing inventory is the cost of the raw material; the processing costs and overhead cost are not changed.

Example (2). Assume the opening inventory had 5 units of raw material, 10 units of goods in process and 20 units of finished goods with the same prices as in Example (1) and the closing inventory had 20 units of raw material, 20 units of goods in process and 10 units of finished goods, with raw material costs as in the closing inventory in example (1).

The adjusted closing inventory would be as follows in so far as the raw material is concerned:

Raw material	Goods in process	Finished goods
20 @ 6¢ = \$1.20...	15 @ 6¢ = \$0.90... 5 @ 10¢ = \$0.50...	None @ 6¢ = \$0.00, 10 @ 10¢ = \$1.00 ¹

¹ This excess is subject to determination of price under section 22 (d) (1) (B) and § 29.22 (d)-2 of this part.

The 20 units of raw material in the raw state plus 15 units of raw material in goods in process make up the 35 units of raw material that were contained in the opening inventory.

When used herein raw material in the opening inventory must be compared with similar raw material in the closing inventory. There may be several types of raw materials, depending upon the character, quality or price, and each type of raw material in the opening inventory must be compared with a similar type in the closing inventory.

In the cotton textile industry there may be different raw materials depending upon marked differences in length of staple, in color or grade of the cotton. But where different staple lengths or grades of cotton are being used at different times in the same mill to produce the same class of goods, such differences

would not necessarily require the classification into different raw materials.

As to the pork packing industry a live hog is considered as being composed of various raw materials, different cuts of a hog varying markedly in price and use. Generally a hog is processed into approximately 10 primal cuts and several miscellaneous articles. However, due to similarity in price and use, these may be grouped into fewer classifications, each group being classed as one raw material.

When the finished product contains two or more different raw materials as in the case of cotton and rayon mixtures, each raw material is treated separately and adjustments made accordingly.

Upon written notice addressed to the Commissioner by the taxpayer, a taxpayer who has heretofore adopted the elective inventory method in respect to any goods may adopt the method herein authorized and limit the election to the raw material including raw materials entering into goods in process and in finished goods. If this method is adopted as to any specific goods it must be used exclusively for such goods for any previous year (not closed by agreement) to which the previous election applies and all subsequent years, unless permission to change is granted by the Commissioner.

This election may also be limited to that phase in the manufacturing process where a product is produced that is recognized generally as a saleable product, as for example in the textile industry where one phase of the process is the production of yarn. Since yarn is generally recognized as a saleable product the election may be limited to that portion of the process when yarn is produced. In the case of copper and brass processors, the election may be limited to the production of bars, plates, sheets, etc., although these may be further processed into other products.

This election may also apply to any one raw material, when two or more raw materials enter into the composition of the finished product, for example, in the case of cotton and rayon yarn the taxpayer may elect to inventory the cotton only. However, a taxpayer who has previously made an election to use the elective inventory method may not now elect to exclude any raw materials that were covered by such previous election.

Narcotic Regulations 5 (26 CFR, Cum. Supp., Part 151) relating to taxes ap-

plicable with respect to dealings in opium or coca leaves or any compound, manufacture, salt, derivative, or preparation thereof, but only as prescribed and made applicable to the Internal Revenue Code by Treasury Decision 4884, approved February 11, 1939 (26 CFR, Cum. Supp., note, p. 5875), are amended by adding to article 99 (§ 151.99) a paragraph reading as follows:

§ 151.99 Ocean vessels. * * *

Subject to a determination by the Commissioner of Narcotics of the necessity and propriety in each case, the owner of civil aircraft of the United States, which are registered under the Civil Aeronautics Act of 1938, as amended, and used in commercial overseas transport, may purchase narcotic drugs or preparations thereof for emergency medical use in, or for stocking, first aid packets or medicine chests on life rafts carried aboard such aircraft. The owner, through his chief medical officer, shall submit to the Commissioner of Narcotics a written order on a form provided by the Public Health Service, approved by a Public Health Service medical officer designated by the Surgeon General of the Public Health Service, addressed to any qualified registered manufacturer or dealer in narcotic drugs, covering the narcotic drug items desired, together with a written application addressed to such Commissioner, for approval of the order, stating the number of life rafts to be supplied, the kind and quantity of narcotics per raft packet unit, and the number of such packets to be held in reserve for replacements. If the order covers replenishment units, after the initial supply, the application shall state in detail the circumstances which make replenishment necessary, including an accounting for all narcotics previously disposed of. The Commissioner of Narcotics may require any further explanation of, or information concerning, any order that he may deem necessary. PART 1010—SUSPENSION ORDERS

[Suspension Order S-638]

ZION'S COOPERATIVE MERCANTILE INSTITUTION

Zion's Cooperative Mercantile Institution of Salt Lake City, Utah is a corporation engaged in the wholesale and retail distribution of merchandise. It conducts at 124 Twenty-second Street, Ogden, Utah, a wholesale grocery business in the name of Zion's Wholesale Grocery. On March 20, 1944, it applied to War Production Board for authorization to build an addition to its warehouse at that address at an estimated cost of \$9,000. This application was incomplete and Zion's Cooperative Mercantile Institution was ordered to furnish additional information before the application would be passed upon. Without completing the application, or furnishing the information requested, and without authorization of War Production Board, it began construction of the warehouse addition about March 25, 1944 and completed about 90% of the construction when stopped by order of War Production Board on June 9, 1944. This construction was in violation of Conservation Order L-41, which placed a limit of \$200 on such construction, and with which Zion's Cooperative Mercantile Institution and its officers and employees responsible for the construction were, or should have been, familiar. The viola-

tion was wilful or the result of gross negligence.

This violation of Conservation Order L-41 has diverted critical materials to uses not authorized by War Production Board and has hampered and impeded the war effort of the United States of America. In view of the foregoing it is hereby ordered, that:

§ 1010.638 *Suspension Order No. S-638.* (a) Neither Zion's Cooperative Mercantile Institution, its successors or assigns, nor any other person, shall do any construction on the premises at 124 Twenty-second Street, Ogden, Utah, including putting up or altering the structure, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Zion's Cooperative Mercantile Institution, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 9th day of October 1944.

PART 3291—CONSUMERS DURABLE GOODS
[Limitation Order L-260-a, as Amended Oct.
10, 1944]

FURNITURE AND FURNITURE PARTS

The fulfillment of requirements for the defense of the United States, has created a shortage in the supply of wood and other critical materials for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3291.66 *General Limitation Order L-260-a—(a) What this order does.* This order governs the manufacture and distribution of furniture. It restricts the use of certain materials in the production of furniture both for civilian use,

and for all other uses, including Army, Navy or other Governmental orders.

(b) *Definitions.* For the purposes of this order:

(1) The term "manufacturer" means any person who makes, assembles, finishes or upholsters any new furniture.

(2) "Furniture" as used in this order means all articles commonly known as furniture including, but not limited to, products shown on List I, but not including products shown on List II.

(3) "Wood" means furniture parts and all sawed lumber including round edge, of any size or grade, whether rough, dressed on one or more sides or edges, dressed and matched, shiplapped, worked to pattern, or grooved for splines. The term does not include veneer and all-veneer constructed plywood, whether produced or purchased by a manufacturer. Neither does it include slabs, edgings, trims and off-falls less than 3 inches wide or less than 4 feet long when purchased in such form.

(4) "Veneer" means, for the purpose of this order and only for the purpose of this order, a layer of wood $\frac{3}{8}$ inches or less in thickness whether sawn, sliced or rotary cut.

(5) "Furniture parts" as used in this order means parts, unassembled or assembled, intended for use in the production of furniture, including but not limited to, dimension parts whether or not cut to size, machined or partially machined, carvings, turnings, venetian blind slats, moldings, lumber cores used or purchased as such or in the form of plywood.

(6) "Pattern" means any piece of furniture, whether or not containing wood as defined in paragraph (b) (3), having its own identification mark and selling price, except that for the purpose of this order, two or more pieces of furniture identical in every respect other than color, finishing material, fabric, leather or other outer covering or cover, species of wood or veneer, spring construction, content of metal parts or method of joining shall be considered one pattern, whether or not they have the same selling price. A suite of furniture of two or more different pieces shall constitute two or more patterns.

(7) "Upholstery springs" means any type of spring, intended for use in upholstered furniture, whether flat, coiled or otherwise formed, made of metal, including but not limited to, upholsterer's seat springs, spring cushion units, pillow springs, flat or formed under-constructions, spring constructions, spring supporting bars, edgewire and edgewire clips.

(8) "Upholstered furniture" means padded furniture whether or not containing upholstery springs.

(c) *Restrictions on use of wood.* During any calendar quarter, no manufacturer shall use in the manufacture and crating of furniture more than 21% of the amount of wood which he used for these combined purposes in the calendar year 1943. Use of wood shall be measured in board feet, and wood shall be considered used in the quarter in which it is first changed from the form in which it was received or is first assembled, fin-

ished or upholstered. In computing the amount of wood used in items such as furniture parts or as assembled furniture, bought otherwise than by gross board-foot measurement, a manufacturer may convert it to board feet by any reasonable and consistent method.

(d) *Restrictions on receipt of wood.* No manufacturer shall accept any delivery of wood, which, added to all inventory on hand, including wood in dry kilns, will give him a supply greater than:

(1) 42% of the amount of wood (which requires kiln or air drying prior to use) consumed by him in the production of furniture in 1943.

(2) 21% of the amount of other wood, consumed by him in the production of furniture in 1943.

(e) *Restrictions on patterns.* (1) [Deleted Oct. 10, 1944]

(2) On and after June 1, 1944, no manufacturer shall at any one time be engaged in processing, fabricating, assembling or offering for sale in combined total more than 25% of the total number of patterns of furniture offered for sale by him during the month of September, 1941, or 24 patterns, whichever is greater.

(3) [Deleted Oct. 10, 1944]

(4) [Deleted Oct. 10, 1944]

(5) The provisions of this paragraph (e) do not apply to the manufacture of the following: (i) venetian blinds; (ii) furniture to fill any order, contract or subcontract placed by or for the account of the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, or the Federal Public Housing Authority.

(f) *Restrictions on the use of metal.*

(1) No manufacturer shall use in the production of upholstered furniture in any calendar quarter more metal upholstery springs than 12½% by weight of the total weight of metal upholstery springs used by him in the year 1941.

(2) No manufacturer shall use in the production of furniture any steel sheet or strip which is 12 inches or more in width.

(g) *Small manufacturers excluded.* This order does not apply to any manufacturer in any quarter in which his sales of furniture are less than \$5,000.00 provided that his sales did not exceed \$20,000.00 in any of the years 1941, 1942, or 1943.

(h) *Equitable distribution to retailers.* It is the policy of the War Production Board that furniture not required to fill rated orders be distributed equitably to retailers giving due regard to established trade connections and also to the needs of dealers whose usual supplies have been cut off and diverted, and to the increased needs of certain areas caused by war conditions. If voluntary compliance with this policy is not found to be sufficient, the War Production Board may issue directions with respect to sales to specified outlets or to outlets in specified areas.

(i) *Finished item deliveries.* No person shall deliver, offer for sale, or accept delivery of any furniture or furniture part which he knows or has reason to be-

Heve was made, assembled or delivered in violation of this order.

(j) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports as the War Production Board may specify from time to time, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(k) *Appeals.* Any appeal from this order should be made on Form WPB-1477 (formerly PD-500) and should be filed with the field office of the War Production Board for the district in which is located the plant to which the appeal relates.

(l) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(m) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(n) *Communications.* All reports required to be filed hereunder and all communications, other than appeals, concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers Durable Goods Division, Washington 25, D. C., Ref.: L-260-a, as amended.

Issued this 10th day of October 1944.

INTERPRETATION 1

FURNITURE AND FURNITURE PARTS; REMODELING BY INCLUSION OF SPRINGS

Since the revocation of Order L-135 on January 14, 1944, some question has arisen in connection with the remodeling of padded or upholstered furniture produced prior to that date without springs.

A person who remodels such a completely finished and upholstered item of padded furniture by the mere inclusion of upholstery springs is not engaged in the production of upholstered furniture within the meaning of Order L-260-a, nor is he a "reconditioner" or "repairman" under CMP Regulation No. 9A. However, if a person adds springs to an item of furniture which had not been completely finished and upholstered prior to that date, he is a manufacturer and subject to the restrictions of that order.

Only a limited number of springs are available for this purpose. To the extent that a spring distributor has upholstery springs available which are not required to fill rated orders, he may sell them on unrated orders. (Issued Apr. 18, 1944.)

OFFICE OF PRICE ADMINISTRATION.

[MPR 188, Amdt. 55 to Order A-1]

BUILDING BRICK AND TILE

ADJUSTMENT OF MAXIMUM PRICES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Paragraph (a) (41) is added to Order No. A-1 to read as follows:

(41) *Modification of maximum prices for building brick (common and face, except ceramic glazed), structural clay hollow building tile (except ceramic glazed ware), and clay drain tile (glazed and unglazed).* (i) The manufacturers' maximum prices established pursuant to Maximum Price Regulation

No. 188, as amended, for building brick (common and face, except ceramic glazed), produced in the States of Arkansas, Louisiana, Oklahoma, and Texas, may be increased by adding an amount not in excess of \$1.75 per thousand for standard size brick to the f. o. b. plant prices or delivered prices. If a manufacturer had an established differential in price during the month of March

1942 for non-standard sizes of building brick (common and face, except ceramic glazed), he may convert the adjustment granted herein for standard size brick on the basis of the conversion factors or formula in use by him during March 1942 in establishing a price differential between the standard size brick and the non-standard size brick under this adjustment.

(ii) The manufacturers' maximum prices established pursuant to Maximum Price Regulation No. 188, as amended, for structural clay hollow building tile (except ceramic glazed ware), and clay drain tile (glazed and unglazed), produced in the area described in (i) above, may be increased by adding thereto an amount not in excess of \$.72 per ton to the f. o. b. plant prices or delivered prices.

(iii) Any reseller purchasing building brick (common and face, except ceramic glazed), structural clay hollow building tile (except ceramic glazed ware), and clay drain tile (glazed and unglazed) for resale from any manufacturer who has adjusted his maximum prices in accordance with subdivision (i) or (ii), above, may increase his maximum prices, established under the General Maximum Price Regulation, by a dollars-and-cents amount not exceeding his actual dollars-and-cents increase in cost resulting from the increase permitted in subdivisions (i) and (ii) above.

(iv) The maximum prices established herein shall be subject to cash, quantity, and other discounts, transportation allowances, services, and other terms and conditions of sale at least as favorable as the seller extended or rendered on comparable sales to purchasers of the same class during March 1942.

(v) Any price adjustments granted prior to October 11, 1944, by the Price Administrator or any Regional Administrator for any seller of brick, building tile, or drain tile, covered by the provisions set forth above, are hereby revoked.

This Amendment No. 55 shall become effective October 11, 1944.

Issued this 10th day of October 1944.

[P. & S. Docket No. 1673]

KENNETT, MURRAY & WHITING

ORDER OF INQUIRY AND SUSPENSION, AND NOTICE OF HEARING

This proceeding is instituted pursuant to the provisions of Title III of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 1940 ed. 181 et seq.), hereinafter referred to as the act, and the following allegations are made:

1. The respondents comprise a partnership consisting of Kennett-Murray Co., a partnership, and P. R. Whiting, an individual, doing business as Kennett, Murray & Whiting, and are registered under the act as a dealer to buy and sell livestock and to render services in assembling, handling, loading, and shipping supervision in connection with livestock sold at and shipped from the Fort Wayne Union Stock Yards, Fort Wayne, Indiana, which stockyard has been ascertained by the Secretary of Agriculture to be a "stockyard" as that term is defined in the act, and notice of such finding has been given to the owner and to the public as required by the act.

2. Pursuant to the provisions of the act, the respondents have heretofore filed and put into effect schedules of rates and charges for their services.

3. On or about September 7, 1944, the respondents made, filed, and published, effective October 9, 1944, a new schedule of rates and charges designated as Supplement No. 1 to Tariff No. 1, which rates and charges are materially greater than those set forth in their tariff now in effect and on file.

4. On September 7, 1944, the respondents gave notice of the proposed increase in rates to the Office of Price Administration, as required by the amendment to the Emergency Price Control Act of 1942 (Pub. L. No. 729, 77th Cong., 2nd Sess.), effective October 2, 1942, Executive Order No. 9250 (7 F.R. 7871) and Directive No. 1 of the Director of Economic Stabilization (7 F.R. 8758).

5. There is reason to believe that the increases in rates and charges proposed by the respondents are not justified and that such proposed increases in rates are, in fact, unreasonable and unlawful.

6. It is concluded that a proceeding under Title III of the act should be instituted for the purpose of determining the reasonableness and lawfulness of the rates and charges proposed in Supplement No. 1 to Tariff No. 1 filed by the respondents and of all other rates and charges of the respondents, and of any rule, regulation, or practice affecting such rates and charges, and whether any stockyard service is rendered by the respondents without making a lawful charge therefor; and that, pending a hearing and decision in such proceeding, the operation of Supplement No. 1 to Tariff No. 1, filed by the respondents, should be suspended and its use deferred.

Accordingly, the operation and use of Supplement No. 1 to Tariff No. 1, filed by the respondents on or about September 7, 1944, effective October 9, 1944, is herewith suspended and deferred until the expiration of thirty days from and after such time as the tariff would otherwise go into effect. Notice of such suspension is herewith given and the respondents are notified that a hearing covering the allegations made herein will be held before an examiner at a time and place of which the respondents will have at least ten days' notice. At such hearing, the respondents and all other interested persons will have a right to appear and present such evidence with respect to the matters and things alleged as may be relevant and material. All interested persons who may wish to appear and present evidence relative to the issues in this proceeding shall notify the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Washington, D. C., within twenty days from the date of the publication of this order. A copy hereof shall be served upon the respondents by registered mail, and publication of this order shall be made in the FEDERAL REGISTER.

Done at Washington, D. C., this 9th day of October 1944.

Assistant to the
War Food Administrator.
